Guidelines for use of Argyle ISD Technology Resources

The Superintendent or designee will oversee the Argyle ISD electronic communications system.

The Argyle ISD system will be used only for administrative and educational purposes consistent with the District's mission and goals. Commercial use of the District's system is strictly prohibited. The goal in providing these resources is to promote educational excellence in the District's schools by facilitating resource sharing, innovation and communication with the support and supervision of parents, teachers and support staff. The use of these technology resources is a privilege, not a right.

The District will provide training to students in proper use of the system and will provide all users with copies of acceptable use guidelines. All training in the use of the District's system will emphasize the ethical use of this resource.

Copyrighted software or data may not be placed on any system connected to the District's system without permission from the holder of the copyright. Only the owner(s) or individuals the owner specifically authorizes may upload copyrighted material to the system.
